Toronto -

Dear Sir:-

I am asking for information regarding a Professor of Oxford England, who recently spoke in Toronto on "The Place of Art in the Home". I have not even his name, but our District Woman's Institute were anxious to know whether this lecturer were still

in Canada, and they thought if I described him to you as above you might be able to give us the desired information, with the addition of his name and address. Hoping you may not consider it too much trouble to act as a sort of "Sherlock Holmes" for us in this matter

I remain
Yours Truly
